DATE: May 22, 2020

TO: St. John of God Retirement and Care Center (SJGRCC) Patients/Residents,
Visitors, Staff and Vendors

FROM: Administration

SUBJECT: **Coronavirus Update**

Today's update is also available on our Facebook page and at www.stjogrcc.org/news/.

There were no further positive Covid-19 results for the tests administered on May 13th. The two staff positives we reported last week remain the only positive results we have experienced. All Los Angeles County Public Health Department recommended measures were taken as a result of those two positives, and remain in effect. In compliance with the County's mandate to test all skilled nursing facilities on a monthly basis, our June testing will begin on June 1st and include our skilled nursing facility patients and the campus staff.

In the event of a significant patient or resident outbreak we are required by the County to have a contingency plan to isolate those patients and residents. Pascal Station has been identified for skilled nursing patients and Grande 3rd Floor has been identified for RCFE residents. If the plan is implemented, formal notifications will be made and those currently located on Pascal or Grande 3rd Floor would be temporarily relocated.

Testing for residents in Grande, Menni and Pampuri, which was not part of the previous mentioned County testing process is in the process of being scheduled.

We continue to screen everyone upon entry to the campus and perform a second screening for employees upon completion of their shift. All staff also continue to follow infection control guidelines to protect those they interact with, and themselves. No one on campus is showing any symptomology consistent with Covid-19 at this time and the appropriate care staff are constantly assessing both patients and residents.

As the County relaxes requirements related to safer at home or lockdowns, we will stay abreast of those developments so we can properly incorporate them with respect to access to the campus. As part of that process we are reviewing our visitation practices and will communicate any modifications we deem appropriate.

Please stay safe and well.
