DATE: October 2, 2020

TO: St. John of God Retirement and Care Center (SJGRCC) Patients/Residents, Visitors, Staff and Vendors

FROM: Administration

SUBJECT: **Coronavirus Update**

Today's update is also available on our Facebook page and at www.stjogrcc.org/news/.

There are no positive resident or patient test results to report in any of the buildings on campus. No one on campus is showing any symptomology consistent with Covid-19 and all campus buildings are free to admit new patients and residents. Our processes for monitoring patients and residents on campus continues, as does screening of all who enter the campus.

Our 9/30 testing of 180 patients and staff have produced 154 negative results and 26 samples are still being processed.

As we have communicated over these recent months, our measures to protect patients, residents and staff have been very successful. Based on this success, we are anticipating new Federal guidelines to initiate controlled in-facility visitation. We are still awaiting the specific local guidance from the County, and once received we will develop our processes and make that information available via this weekly letter and on our website.

As always, communication with the County to insure compliance with requirements and provide needed updates on our status is ongoing. We continue to have adequate levels of PPE and all staff are following infection control guidelines to protect those they interact with, and themselves.

Please stay safe and well.
